About us

Digital Infomedia Solution is a young enterprise operating in the webcasting arena for the last Consecutive 12 years.

In this tenure Digital Infomedia Solution has successfully executed more than 25000 webcasts, Webinars for varied industrial sectors (viz; IT, Entertainment, Banking, Research groups, top of the crop FMCG & pharmaceutical companies).

Success Roadmap

Digital Infomedia success roadmap is a contribution of the following factors:

1. Highly Experienced & Skilled Technical Team
2. Committed professional attitude
3. Customer centric ability & approach

Our Values

Digital Infomedia accepts and agrees to have read the tender document completely and complies with the terms and conditions of conduct mentioned in the document. Digital Infomedia makes a professional commitment to stand and abide to the requirements Mentioned therein, in order to make the contract a success. Digital Infomedia is open to any Kind of official inspection and provision of key personnel for presentations and clarifications if need be.

Our Identity

We at "Digital Infomedia" make your event/conference more effective & target oriented by providing Live Webcasting Services which helps you to reach out to global as well as local audience. Webcasting is the fastest growing advertising medium to promote your business; it helps in extending your event to a wider and larger audience and attracts publicity.

Webcasting is the live broadcasting of video and audio via the Internet or Intranet from the venue.

The advantage of a webcast is that it can also be watched or listened to later online by anyone who missed the live broadcast.

Virtual Events

The value of face-to-face interaction will never go away, but there are times when going virtual is a necessary part of your event program. But how do you turn a multi-day conference, filled with networking opportunities, educational sessions, and the attendee insights they generate into virtual events? And once you do, how do you ensure attendees are engaged throughout the event?

Hosting a virtual event requires the same care and attention as an in-person event. With both events, you need to effectively promote the event, engage your attendees, create memorable moments for attendees, and prove event success. The only thing that's missing is the venue and the attendees on site. But, by thinking of virtual events not as small one-off presentations, but as value-added, engagement-driven experiences, you can create an impactful event that extends well-beyond a computer screen.

Virtual & Hybrid AGMs

Broader reach and transparency for all stakeholders

The annual general meeting of shareholders (AGM) is a compulsory and significant opportunity to communicate with shareholders. In an increasingly digital and globalised world, it is more important than ever to broadcast your AGM via a video webcast or webinar. All stakeholders can follow the broadcast live, from anywhere in the world.

Digital Infomedia, a Company offers three different options for a virtual or hybrid AGM:

1. On-premise webcast: Host your AGM at a location of your choice and webcast it live.
2. In-studio: A select group of your company's executives are in one of our state-of-the-art studios, with the rest joining virtually.
3. Virtual Conference Room Webinar: All executives and other stakeholders join the AGM digitally, from anywhere, with any video conferencing solution.

Virtual & Hybrid AGMs

Broader reach and transparency

The main reasons for choosing a virtual or hybrid video webcast are to increase the reach, as a webcast is a very accessible way to participate, but also to be as transparent as. Through a live webcast, all shareholders and stakeholders, regardless of where they are in the world, have equal access to crucial company information.

Webinar Solutions

Webinar and webcast solutions for truly professional webinars and webcasts. Bundling the best expertise with the latest technology to ensure your webinars are always successful. That's our aim with our Next Generation webinar & webcast platform

Webinar Solutions

- ▶ Studio Webinar – TV production in HD quality at a fraction of the price
- ▶ Webinars on premises – Professional capturing and webcasting of online events from your location of choice
- ▶ VCR Webinar – Efficient and professional webcasting, from home, work or anywhere
- ▶ Self Service – DIY webinar production for frequent webinars.

Webinar Solutions

Webinar Solutions

Achieve unrivaled webinar quality by broadcasting from one of our professional webinar studios in Amsterdam WTC, The Hague, Rotterdam, or Brussels.

Work with digital backgrounds in our green screen studios with multiple cameras and state-of-the-art audio and video technology.

Webinars on premise

Create your own studio setting at a location of your choice. Our professionals will support you in achieving the video and audio quality you expect to deliver on your objectives.

Virtual Conference Room (VCR) Webinars

With a VCR webinar, you can reach your viewers anywhere, including from your home office. Speakers can be connected from different locations with audio and video. Your participants can also watch from anywhere on their computer, tablet or smartphone.

Webinar Solutions

Self-Service Webinars

Organising webinars on a frequent basis? Prepared to produce your webinars yourself? Then our Self-Service solution is the right option for you. Broadcast professional interactive webinars from your own webinar studio.

Webcasting Solutions

- ▶ Full Service Webcasts – Our experienced team of professionals will handle everything for you
- ▶ Automated Webcasts – Webcast your events and meetings yourself and ensure immediate and secure archiving

Webinar Solutions

Full Service Webcasts

Do you want to make your event accessible to a wide audience, but are lacking the time to organise the webcasting? With our Full Service Webcasting solution everything is taken care of: connectivity testing, camera and audio placement, webcast directing, immediate support. You take care of your event, we'll take care of the webcasting.

Automated Webcasts

Monthly, weekly or even daily webcasts? In the same location? Choose Automated Webcasting. We'll integrate your conference and video system. Provide a ready to use webcasting system and off you go. Incredibly easy.

Webinars on location

We can transform any location into a professional webinar setting so that you can broadcast from the comfort of your own office or event venue. Company Webcast Webinar on Location creates a professional setting, whether on a one-off, temporary or permanent basis, for the broadcast of your webinar. We offer everything necessary to optimise the quality of your broadcast. The setting includes:

- ▶ A large white screen as background
- ▶ One or more HD cameras
- ▶ Professional sound, lighting and crew

Webinar Solutions

Digital Infomedia webinar studio in your own office

If you intend to regularly broadcast professional webinars from your own office, choose the in-house Company Webcast Webinar Studio option.

This includes full support of all our Company Webcast Webinar Formats and you are assured of a professional setting and crew members who guarantee successful broadcasts time after time.

It is also possible to produce webinars from your own location independently, in which case you should select our Company Webcast Self-Service Webinar Solution.

THANK YOU
